

State of New York

2022 NBRC State Economic & Infrastructure Development Investment Program

Awarded to:	Town of Schroon
Project:	The project will improve wastewater conveyance to local businesses and residences on Main Street along Schroon Lake. This includes the replacement of an existing vitrified clay pipe sewer to support existing businesses and jobs and future economic growth, protect natural resources, and ensure SPDES Permit compliance.
Location of Project:	Essex County (NY-21)
Grant Amount:	\$853,440
Total Project Amount:	\$1,066,800
Awarded to:	Town of Fayette
Project:	The sewer project will install over 11 miles of force main to approximately 330 parcels to connect the town's district to the Village of Waterloo Sanitary Sewer System. The new system will serve properties on Seneca Lake and reduce septic system discharge to the Lake.
Location of Project:	Seneca County (NY-23)
Grant Amount:	\$1,000,000
Total Project Amount:	\$5,581,730
Awarded to:	Village of Canton
Project:	The proposed project will design and construct a new secondary water source to address a compliance issue relating to capacity. The project will add new infrastructure and increase water capacity by approximately 26% to accommodate future growth.
Location of Project:	St. Lawrence County (NY-21)
Grant Amount:	\$1,000,000
Total Project Amount:	\$2,277,483
Awarded to:	Adirondack Mountain Club
Project:	The project will enable the Adirondack Mountain Club to renovate the former Cascade Cross Country Ski Center to help visitors and residents connect with the many and varied natural assets of the Adirondacks. Funding will make the 200-acre property available to the public for skiing and other outdoor activities, as well as increase capacity by adding a fully accessible, year-round world-class outdoor education and visitor information center.
Location of Project:	Essex County (NY-21)
Grant Amount:	\$303,960
Total Project Amount:	\$380,195

Awarded to: Village of Nelliston
Project: The proposed project will rehabilitate approximately 15,000 linear feet of existing sewer main within Village to enhance environmental health as well as promote future development and job growth.
Location of Project: Montgomery County (NY-19)
Grant Amount: \$50,000
Total Project Amount: \$1,000,000

Awarded to: Historic Saranac Lake
Project: The project will rehabilitate the historic Trudeau Building in Saranac Lake to create an accessible history museum campus in the downtown that will create jobs and drive economic development in the Adirondack North Country.
Location of Project: Franklin County (NY-21)
Grant Amount: \$350,000
Total Project Amount: \$2,670,000

Awarded to: St. Lawrence County IDA
Project: The project will rehabilitate the industrial track and bridge over the Oswegatchie River that have been inactive since defects were discovered in 2009. Funding will restore reliable, direct rail service to the Dunn Paper Mill in Natural Dam and allow for further industrial development of parcels in the Town of Gouverneur.
Location of Project: St. Lawrence County (NY-21)
Grant Amount: \$494,400
Total Project Amount: \$618,000

Awarded to: Paul Smith's College
Project: The project will improve wastewater and drinking water services for Paul Smith's College by replacing over 1,000 lineal feet of sanitary sewer lines to improve waste transmission to the wastewater treatment plant and 11,325 lineal feet of drinking water distribution pipes. These improvements are necessary to sustain the health and wellbeing of the college community and support increased enrollment and revenue, job retention and creation, and serve the needs of the north country community.
Location of Project: Franklin County (NY-21)
Grant Amount: \$675,452
Total Project Amount: \$844,315

Awarded to: Plattsburgh-North Country Chamber of Commerce
Project: The project will develop a comprehensive welding training program to train 50 individuals and prepare them to enter the workforce as a welder. Upon completion, trainees will have the skills required to obtain a welding job at any North Country manufacturing operation. This pool of trained welders will help support both the short-time workforce needs and long-term workforce needs of our manufacturers during this workforce shortage. The training will be housed at Clinton Community College's Institute for Advanced Manufacturing.
Location of Project: Clinton County (NY-21)
Grant Amount: \$285,600
Total Project Amount: \$306,533.67

Awarded to: Griffiss Local Development Corporation
Project: The project will expand rail yard capacity within Griffiss Business & Technology Park by approximately 16 railcars to provide greater flexibility to serve existing Park tenants.
Location of Project: Oneida County (NY-22)
Grant Amount: \$353,360
Total Project Amount: \$441,700

Awarded to: Warren County
Project: Warren County will develop an improvement plan for the Warren County Bikeway and Feeder Canal Trail that serve as the connections between the Empire State Trail and Lake George as well as the various downtowns in between. The plan will provide Warren County and municipal partners with an actionable plan for making investments in the multi-use trail network.
Location of Project: Warren County (NY-21)
Grant Amount: \$160,000
Total Project Amount: \$200,000

Awarded to: Town of Glenville
Project: The Town of Glenville will extend a water main to complete a hydraulic loop to meet increasing demand for improved water capacity, and water pressure at the Glenville Business and Technology Park. The enhanced water service will have a regional economic impact and support current and future manufacturing processes and office facilities as well as enabling reliable fire protection with functional hydrants/sprinkler systems.
Location of Project: Schenectady County (NY-20)
Grant Amount: \$273,788
Total Project Amount: \$1,728,000
