

Northern Border Regional Commission

Northern Border Regional Commission (NBRC)

J-1 Visa Waiver Program

One-Year Impact Data Collection

Purpose of Data Collection

Information collected through this form is used by NBRC for federal program evaluation, performance measurement, and reporting to Congress and partner states. Data supports oversight of NBRC's role as a federal-state partnership advancing healthcare access, workforce stability, and rural economic resilience. Estimates are acceptable where precise data is not readily available.

Hospital Name: _____

Physician Name: _____

Specialty: _____

Contract Start Date: _____

Reporting Period: _____

Prepared by (Name/Title): _____

Date: _____

1. Access to Care & Service Capacity

A. Patient Access

- Average patient wait time *prior to physician start*: _____
- Average patient wait time *after physician start*: _____
- Estimated change (reduction/increase): _____

B. Service Capacity

- Total patients served by the practice/department during reporting period: _____
