Applicant/Award #	Date Completed	Original Federal Agency	Adoption / Application Type or Mitigated Determination	CATEX used / Name of EA Adopted
Clean Energy NH (NH Sustainable Energy Association) NBRC23GNH06	3.18.24	Denali Commission	CATEX	A4. Grants for Social Services, Education, and Training Programs Approving and issuing grants for social services, education and training programs, including but not limited to support for Head Start, senior citizen programs, drug treatment programs, and funding internships, except for projects involving construction, renovation, or changes in land use. Application of the CE will be limited to the following NBRC activities: • Grants for workforce development and training programs, planning initiatives, community visioning processes, and other community-based capacity-building initiatives.
Mount Washington Observatory NBRC23GNH04	3.7.24	Denali Commission	CATEX	A6. Nondestructive data collection, inventory, study, research, and monitoring activities (e.g., field, aerial and satellite surveying, and mapping). - Application of the CE will be limited to the following NBRC activities: Grants to support discrete non-destructive data collection, inventory, study, research, and monitoring activities funded under 40 U.S.C. 15501(a).
Agency of Commerce & Community Development NBRC23USDA11	4.1.24	Denali Commission	CATEX	A4. Grants for Social Services, Education, and Training Programs Approving and issuing grants for social services, education and training programs, including but not limited to support for Head Start, senior citizen programs, drug treatment programs, and funding internships, except for projects involving construction, renovation, or changes in land use. Application of the CE will be limited to the following NBRC activities: - Grants for workforce development and training programs, planning initiatives, community visioning processes, and other community-based capacity-building initiatives.
City of Presque Isle NBRC23GBME02	5.10.2024	Federal Aviation Administration	CATEX Determination	FAA Order 1050.1F – 5.6.4(h) - Federal financial assistance, licensing, or Airport Layout Plan (ALP) approval for construction or expansion of facilities—such as terminal passenger handling and parking facilities or cargo buildings, or facilities for non-aeronautical uses at existing airports and commercial space launch sites—that do not substantially expand those facilities (see the FAA's presumed to conform list (72 Federal Register 41565 (July 30, 2007))).

VSU/Smokey House NBRC23GRF04	5.16.24	Denali Commission	CATEX	B3. Construction or lease of new infrastructure including, but not limited to, healthcare facilities, community buildings, housing, and bulk fuel storage and power generation plants, where such lease or construction: a. Is at the site of existing infrastructure and capacity is not substantially increased; or b. Is for infrastructure of less than 12,000 square feet of useable space when less than two acres of surface land area are involved at a new site. Application of the CE will be limited to the following NBRC activities, which would occur on previously disturbed land: • Grants for new infrastructure for healthcare facilities; • Grants for new infrastructure for childcare facilities; • Grants for new infrastructure for community buildings and housing; • Grants for projects that upgrade or replace outdated power generation technology; • Grants for water and wastewater infrastructure;
The Research Foundation for the State University of New York NBRC23GRF08	5.17.24	Denali Commission	CATEX	A7. Research, planning grants and technical assistance projects that are not reasonably expected to commit the federal government to a course of action, to result in legislative proposals, or to result in direct development. Application of the CE will be limited to the following NBRC activities: •Grants to support data collection and research that furthers the NBRC's, and/or grantees', stakeholders', partners', etc. understanding of the region's needs, capacity, or funding gaps as it pertains to economic development as defined by the NBRC and expressly noted in 40 U.S.C. 15501(a) •Approving and issuing grants to organization to provide technical advice and grant administration assistance to organizations (e.g., community and economic development entities who provide technical and grant administration assistance to address lack of capacity at state, regional and local levels), where such assistance is independent of any implementation actions with potential environmental effects.
Avesta Housing Development/Mount Washington Valley Economic Council NBRC23GBNH21	5.2.24	Department of Housing and Urban Development	EA	Technology Village Environmental Review

Paul Smith's College **NBRC23GRF06**	5.24.24	Denali Commission	CATEX	B1. Upgrade, repair, maintenance, replacement, or minor renovations and additions to buildings, roads, harbors and other maritime facilities, grounds, equipment, and other facilities, including but not limited to, roof replacement, foundation repair, ADA access ramp and door improvements, weatherization and energy efficiency related improvements, HVAC renovations, painting, floor system replacement, repaving parking lots and ground maintenance, that do not result in a change in the functional use of the real property. Application of the CE will be limited to the following NBRC activities, all of which would occur within the existing footprint of a building or on adjacent disturbed land: • Grants to support renovation of health facilities to bring them up to modern use standards; • Grants to support upgrades, maintenance and repair of existing transportation infrastructure (e.g., covered bridges) including for the purpose of resiliency to changing local climate; • Grants to support connections to existing trails, for example, from a city street to a bike path, and renovating tourist destination hubs to ensure continued access to tourist centers in the region where potential impacts of connections are documented and do not substantially alter existing facilities, traffic patterns or other existing infrastructure; • Grants to support upgrades, repair, maintenance, replacement, minor renovations, or additions to existing buildings, roads, harbors, and/or other maritime facilities to ensure continued access for purposes of economic development and/or community access, where the addition will not result in changes to the existing functional use, and where any additions occur on adjacent previously disturbed land.
Lancaster, Town of (2) **NBRC23BGNH24**	5.29.24	Denali Commission	CATEX	B3. Construction or lease of new infrastructure including, but not limited to, healthcare facilities, community buildings, housing, and bulk fuel storage and power generation plants, where such lease or construction: a. Is at the site of existing infrastructure and capacity is not substantially increased; or b. Is for infrastructure of less than 12,000 square feet of useable space when less than two acres of surface land area are involved at a new site. Application of the CE will be limited to the following NBRC activities, which would occur on previously disturbed land: • Grants for new infrastructure for healthcare facilities; • Grants for new infrastructure for childcare facilities; • Grants for new infrastructure for community buildings and housing; • Grants for projects that upgrade or replace outdated power generation technology; • Grants for water and wastewater infrastructure;

Neck of the Woods **NBRC23GVT01**	6.25.24	Denali Commission	CATEX	B1. Upgrade, repair, maintenance, replacement, or minor renovations and additions to buildings, roads, harbors and other maritime facilities, grounds, equipment, and other facilities, including but not limited to, roof replacement, foundation repair, ADA access ramp and door improvements, weatherization and energy efficiency related improvements, HVAC renovations, painting, floor system replacement, repaving parking lots and ground maintenance, that do not result in a change in the functional use of the real property. Application of the CE will be limited to the following NBRC activities, all of which would occur within the existing footprint of a building or on adjacent disturbed land: •Grants to support renovation of health facilities to bring them up to modern use standards; •Grants to support upgrades, maintenance and repair of existing transportation infrastructure (e.g., covered bridges) including for the purpose of resiliency to changing local climate; •Grants to support connections to existing trails, for example, from a city street to a bike path, and renovating tourist destination hubs to ensure continued access to tourist centers in the region where potential impacts of connections are documented and do not substantially alter existing facilities, traffic patterns or other existing infrastructure; •Grants to support upgrades, repair, maintenance, replacement, minor renovations, or additions to existing buildings, roads, harbors, and/or other maritime facilities to ensure continued access for purposes of economic development and/or community access, where the addition will not result in changes to the existing functional use, and where any additions occur on adjacent previously disturbed land.

Acquisition and installation of equipment including, but not limited to, EMS, emergency and non-expendable medical equipment (e.g., digital imaging devices and dental equipment), and communications equipment (e.g., computer upgrades). Application of the CE will be limited to the following NBRC activities: • Grants to support acquisition and installation of fiber optic cable upgrades and other communications equipment within the existing footprint of a building, vehicle, existing electrical or communications infrastructure to improve broadband access; • Grants to support acquisition and installation of medical, emergency, and communications equipment for medical facilities or emergency services within the existing footprint of a building, on a structure, or within a vehicle; • Grants to support acquisition and installation of equipment within the existing footprint of a building or within a vehicle to support enhanced cellular access. • Grants to support acquisition and installation of equipment for transportation and recreational infrastructure improvements. • Grants to support acquisition and installation of equipment for forestry management activities and production of forestry products. • Grants to support acquisition and installation of environmental monitoring equipment, such as weather stations to enhance environmental research and monitoring efforts.

Dover and Foxcroft Water District **AP-NBRC-183 / GT-CAT-00041**	3/10/2025	Maine's Department of Health and Human Services Drinking Water Program - Drinking Water State Revolving Funds (DWSRF), originating with the Environmental Protection Agency (EPA)	CATEX	State of Maine "Rules Relating to Drinking Water State Revolving Fund" Chapter 230, 6(c)(II): The categorical exclusion (CE) determination applies to categories of Projects that have been shown over time not to entail significant impacts on the quality of the environment: AA. A Project that 1) is expected to have no significant environmental impact, 2) is located such that the Project or the required construction work for the Project will not be in or affect nearby environmentally sensitive areas or resources, and 3) meets any one of the following criteria, as determined by DHHS, may be categorically excluded from formal environmental review requirements: i. The Project is directed solely toward the rehabilitation, minor upgrading and/or minor expansion of existing facilities, toward functional replacement of equipment, toward the construction of related facilities adjoining existing facilities, or toward construction of small structures on existing sites; 10-144 Chapter 230 page 5 ii. The Project is to replace existing water mains with new mains in the same general location; or iii. The Project is to replace existing water storage facilities with new storage facilities in the same general location; or iv. The Project is to construct distribution or transmission mains in existing developed rights-of-way; or v. The Project is the purchase of land or easements integral to the implementation of a source water protection plan where no landuse changes are anticipated to occur.
Greenville, Town of **AP-NBRC-182 / GT-CAT-00051**	3/10/2025	Denali Comission	CATEX	B3. Construction or Lease of New Infrastructure Construction of new infrastructure including, but not limited to, healthcare facilities, community buildings, housing, and bulk fuel storage and power generation plants, where such lease or construction: a. Is at the site of existing infrastructure and capacity is not substantially increased; or b. Is for infrastructure of less than 12,000 square feet of useable space when less than two acres of surface land area are involved at a new site. Application of the CE will be limited to the following NBRC activities, which would occur on previously disturbed land: •Grants for new infrastructure for childcare facilities;
Caribou, City of **NBRC23GME13**	3/11/2025	NBRC	Mitigated FONSI	The Final EA and FONSI are considered mitigated. There is a Monitoring and Compliance Plan (MCP) for mitigation that should be read alongside of both documents. Additionally, there is an Environmental Media Management Plan (EMMP) that supports all three documents (Appended to the Final EA). All of these documents are kept in the Caribou Administrative Record.
Town of Rockingham **NBRC22GEDA04**	3/12/2025	Denali Comission	Mitigated CATEX	B6. CITY OF PLATTSBURGH **AP-NBRC-301**	6/27/2025	Denali Comission	CATEX	B2. Engineering studies and investigations that do not permanently change the environment. Application of the CE will be limited to the following NBRC activities: •Grants to support improvement plans, rehabilitation planning, climate resiliency planning, and the like for projects, including new water and wastewater infrastructure, outdoor recreation trails, and transportation studies for airports and roadways, where such assistance is independent of any implementation actions with potential environmental effects and does not result in surface disturbance.
Sage Mountain Botanical Sanctuary **AP-NBRC-345**	6/27/2025	Denali Comission	CATEX	B2. Engineering studies and investigations that do not permanently change the environment. Application of the CE will be limited to the following NBRC activities: •Grants to support improvement plans, rehabilitation planning, climate resiliency planning, and the like for projects, including new water and wastewater infrastructure, outdoor recreation trails, and transportation studies for airports and roadways, where such assistance is independent of any implementation actions with potential environmental effects and does not result in surface disturbance.
MAINE COMMUNITY COLLEGE SYSTEM **AP-NBRC-360**	6/27/2025	Denali Comission	CATEX	A4. Approving and issuing grants for social services, education and training programs, including but not limited to support for Head Start, senior citizen programs, drug treatment programs, and funding internships, except for projects involving construction, renovation, or changes in land use. Application of the CE will be limited to the following NBRC activities: •Grants for workforce development and training programs, planning initiatives, community visioning processes, and other community-based capacity-building initiatives.
Loring Development Authority of Maine **AP-NBRC-180/GT-CAT-00066**	6/30/2025	Denali Commission	CATEX	B3. Construction or lease of new infrastructure including, but not limited to, healthcare facilities, community buildings, housing, and bulk fuel storage and power generation plants, where such lease or construction: a. Is at the site of existing infrastructure and capacity is not substantially increased; or b. Is for infrastructure of less than 12,000 square feet of useable space when less than two acres of surface land area are involved at a new site. Application of the CE will be limited to the following NBRC activities, which would occur on previously disturbed land: ■ Grants for new infrastructure for healthcare facilities; ■ Grants for new infrastructure for childcare facilities; ■ Grants for new infrastructure for community buildings and housing; ■ Grants for projects that upgrade or replace outdated power generation technology; ■ Grants for water and wastewater infrastructure

GENESEE FINGER LAKES REGIONAL PLANNING C AP-NBRC-309	7/3/2025	Denali Commission	CATEX	A7. Research, planning grants, and technical assistance projects that are not reasonably expected to commit the Federal Government to a course of action, to result in legislative proposals, or to result in direct development. Application of the CE will be limited to the following NBRC activities: •Grants to support data collection and research that furthers the NBRC's, and/or grantees', stakeholders', partners', etc. understanding of the region's needs, capacity, or funding gaps as it pertains to economic development as defined by the NBRC and expressly noted in 40 U.S.C. 15501(a). •Approving and issuing grants to organizations to provide technical advice and grant administration assistance to organizations (e.g., community and economic development entities who provide technical and grant administration assistance to address lack of capacity at State, regional, and local levels), where such assistance is independent of any implementation actions with potential environmental effects.
Town of North Haven AP-NBRC-311	7/3/2025	Denali Commission	CATEX	B2. Engineering studies and investigations that do not permanently change the environment. Application of the CE will be limited to the following NBRC activities: •Grants to support improvement plans, rehabilitation planning, climate resiliency planning, and the like for projects, including new water and wastewater infrastructure, outdoor recreation trails, and transportation studies for airports and roadways, where such assistance is independent of any implementation actions with potential environmental effects and does not result in surface disturbance.
ISLAND INSTITUTE AP-NBRC-315	7/3/2025	Denali Commission	CATEX	A7. Research, planning grants, and technical assistance projects that are not reasonably expected to commit the Federal Government to a course of action, to result in legislative proposals, or to result in direct development. Application of the CE will be limited to the following NBRC activities: •Grants to support data collection and research that furthers the NBRC's, and/or grantees', stakeholders', partners', etc. understanding of the region's needs, capacity, or funding gaps as it pertains to economic development as defined by the NBRC and expressly noted in 40 U.S.C. 15501(a). •Approving and issuing grants to organizations to provide technical advice and grant administration assistance to organizations (e.g., community and economic development entities who provide technical and grant administration assistance to address lack of capacity at State, regional, and local levels), where such assistance is independent of any implementation actions with potential environmental effects.
Lake Champlain - Lake George Regional Planning Board AP-NBRC-318	7/3/2025	Denali Commission	CATEX	A7. Research, planning grants, and technical assistance projects that are not reasonably expected to commit the Federal Government to a course of action, to result in legislative proposals, or to result in direct development. Application of the CE will be limited to the following NBRC activities: •Grants to support data collection and research that furthers the NBRC's, and/or grantees', stakeholders', partners', etc. understanding of the region's needs, capacity, or funding gaps as it pertains to economic development as defined by the NBRC and expressly noted in 40 U.S.C. 15501(a). •Approving and issuing grants to organizations to provide technical advice and grant administration assistance to organizations (e.g., community and economic development entities who provide technical and grant administration assistance to address lack of capacity at State, regional, and local levels), where such assistance is independent of any implementation actions with potential environmental effects.

VT Department of Economic Development NBRC24GSCVT01	7/11/2025	Denali Commission	CATEX	A3. Approving and issuing grants for administrative overhead support. Application of the CE will be limited to the following NBRC activities: • Grants for capacity building initiatives in the NBRC's region to address limited capacity among partners and stakeholders, grantees and potential grantees. These initiatives include: Adding staff and/or contractual capacity within regional economic development entities for the purpose of technical assistance to grantees; Providing support for administrative overhead costs for these economic development entities; Providing grants for contractual support for grantees and potential grantees to be deployed through regional economic development entities.
St. Lawrence County AP-NBRC-056/GT-CAT-00031	7/28/2025	Denali Commission	CATEX	B1. Upgrade, repair, maintenance, replacement, or minor renovations and additions to buildings, roads, harbors and other maritime facilities, grounds, equipment, and other facilities, including but not limited to, roof replacement, foundation repair, ADA access ramp and door improvements, weatherization and energy efficiency related improvements, HVAC renovations, painting, floor system replacement, repaving parking lots and ground maintenance, that do not result in a change in the functional use of the real property. Application of the CE will be limited to the following NBRC activities, all of which would occur within the existing footprint of a building or on adjacent disturbed land: ■ Grants to support renovation of health facilities to bring them up to modern use standards; ■ Grants to support upgrades, maintenance, and repair of existing transportation infrastructure (e.g., covered bridges) including for the purpose of resiliency to changing local climate; ■ Grants to support connections to existing trails, for example, from a city street to a bike path, and renovating tourist destination hubs to ensure continued access to tourist centers in the region where potential impacts of connections are documented and do not substantially alter existing facilities, traffic patterns or other existing infrastructure; ■ Grants to support upgrades, repair, maintenance, replacement, minor renovations, or additions to existing buildings, roads, harbors, and/or other maritime facilities to ensure continued access for purposes of economic development and/or community access, where the addition will not result in changes to the existing functional use, and where any additions occur on adjacent previously disturbed land.

Vermont Youth Conservation Corps (Burlington Weeding Project only) AP-NBRC-139/GT-FEP-00002	8/4/2025	Forest Service	CATEX	D5. Repair and maintenance of recreation sites and facilities. Examples include but are not limited to: (i) Applying registered herbicides to control poison ivy on infested sites in a campground; (ii) Applying registered insecticides by compressed air sprayer to control insects at a recreation site complex; (iii) Repaving a parking lot; and (iv) Applying registered pesticides for rodent or vegetation control. This CE would be applied to NBRC grants that promote tourism or recreation, or grow the capacity for successful community economicdevelopment through the routine repair and maintenance of recreation sites and facilities on federal, state, tribal, or private lands in the NBRCregion. The use of fungicides, herbicides or pesticides under the application of this CE would be limited to those with active ingredients registeredwith the EPA.
TOWN OF THOMASTON AP-NBRC-234/GT-25SPC-00043	8/8/2025	NPS	CATEX Determination Adoption	•DO-12 CATEX F6: “Restoration or rehabilitation of historic structures, facilities, and properties, consistent with the Secretary of the Interior’s Standards for the Treatment of Historic Properties, when such actions are limited to the repair or minor alteration of existing features to preserve historical integrity and do not increase floor area or height.”
Ogdensburg Bridge and Port Authority NBRC23GBNY09	8/12/2025	USDA-RD	CATEX Determination Adoption	§ 1970.54 Categorical Exclusions involving small-scale development with an environmental report. (a) Small-scale site-specific development. The CEs apply to proposals where site development activities (including construction, expansion, repair, rehabilitation, or other improvements) for rural development purposes would impact not more than 10 acres of real property and wouldnot cause a substantial increase in traffic.
The Walpole Foundation AP-NBRC-052 / GT-CAT-00028	9/2/2025	Denali Commission	CATEX	B3. Construction or lease of new infrastructure including, but not limited to, healthcare facilities, community buildings, housing, and bulk fuel storage and power generation plants, where such lease or construction:a. Is at the site of existing infrastructure and capacity is not substantially increased; orb. Is for infrastructure of less than 12,000 square feet of useable space when less than two acres of surface land area are involved at a new site.Application of the CE will be limited to the following NBRC activities, which would occur on previously disturbed land: • Grants for new infrastructure for healthcare facilities; • Grants for new infrastructure for childcare facilities; • Grants for new infrastructure for community buildings and housing; • Grants for projects that upgrade or replace outdated power generation technology; • Grants for water and wastewater infrastructure;

Vermont Youth Conservation Corps (USFS Tree Maintenance Project only) AP-NBRC-139/GT-FEP-00002	9/5/2025	Forest Service	CATEX	E6. Timber stand and/or wildlife habitat improvement activities that do not include the use of herbicides or do not require more than 1 mile of low standard road construction. Examples include, but are not limited to: (i) Girdling trees to create snags; (ii) Thinning or brush control to improve growth or to reduce fire hazard including the opening of an existing road to a dense timber stand; (iii) Prescribed burning to control understory hardwoods in stands of southern pine; and (iv) Prescribed burning to reduce natural fuel build-up and improve plant vigor. This CE would be applied to NBRC grants that promote resource conservation, tourism, recreation, or the preservation of open space, or otherwise grow the capacity for successful community economic development through timber stand and wildlife habitat improvement activities on federal, state, tribal, or private lands in the NBRC region. The construction of low standard roads under the application of this CE would be limited to roads 1 mile or less in length constructed for the primary purpose of accessing the timber stand and wildlife habitat improvement activities that are otherwise inaccessible.
Town of Montgomery NBRC22GVT12	9/15/2025	Federal Highway Administration/ Vermont Agency of Transportation	CATEX	23 CFR 771.117(c) The following actions meet the criteria for CEs in the CEQ regulations (40 CFR 1508.4) and paragraph (a) of this section and normally do not require any further NEPA approvals by the FHWA: (3) Construction of bicycle and pedestrian lanes, paths, and facilities.
Vermont Youth Conservation Corps (TNC Weeding Project only) AP-NBRC-139/GT-FEP-00002	9/16/2025	Forest Service	CATEX	D5. Repair and maintenance of recreation sites and facilities. Examples include but are not limited to: (i) Applying registered herbicides to control poison ivy on infested sites in a campground; (ii) Applying registered insecticides by compressed air sprayer to control insects at a recreation site complex; (iii) Repaving a parking lot; and (iv) Applying registered pesticides for rodent or vegetation control. This CE would be applied to NBRC grants that promote tourism or recreation, or grow the capacity for successful community economic development through the routine repair and maintenance of recreation sites and facilities on federal, state, tribal, or private lands in the NBRC region. The use of fungicides, herbicides or pesticides under the application of this CE would be limited to those with active ingredients registered with the EPA.
Associated General Contractors of Maine AP-NBRC-354 / GT-25SPC-00027	9/19/2025	Denali Commission	CATEX	A4. Grants for Social Services, Education, and Training Programs Approving and issuing grants for social services, education and training programs, including but not limited to support for Head Start, senior citizen programs, drug treatment programs, and funding internships, except for projects involving construction, renovation, or changes in land use. Application of the CE will be limited to the following NBRC activities: • Grants for workforce development and training programs, planning initiatives, community visioning processes, and other community-based capacity-building initiatives.

UNITED CEREBRAL PALSY ASSOCIATION OF THE NORTH COUNTRY, INC. **AP-NBRC-221**	9/22/2025	Denali Commission	CATEX	B1. Upgrade, repair, maintenance, replacement, or minor renovations and additions to buildings, roads, harbors and other maritime facilities, grounds, equipment, and other facilities, including but not limited to, roof replacement, foundation repair, ADA access ramp and door improvements, weatherization and energy efficiency related improvements, HVAC renovations, painting, floor system replacement, repaving parking lots and ground maintenance, that do not result in a change in the functional use of the real property. Application of the CE will be limited to the following NBRC activities, all of which would occur within the existing footprint of a building or on adjacent disturbed land: ■ Grants to support renovation of health facilities to bring them up to modern use standards; ■ Grants to support upgrades, maintenance, and repair of existing transportation infrastructure (e.g., covered bridges) including for the purpose of resiliency to changing local climate; ■ Grants to support connections to existing trails, for example, from a city street to a bike path, and renovating tourist destination hubs to ensure continued access to tourist centers in the region where potential impacts of connections are documented and do not substantially alter existing facilities, traffic patterns or other existing infrastructure; ■ Grants to support upgrades, repair, maintenance, replacement, minor renovations, or additions to existing buildings, roads, harbors, and/or other maritime facilities to ensure continued access for purposes of economic development and/or community access, where the addition will not result in changes to the existing functional use, and where any additions occur on adjacent previously disturbed land.
Village of Waddington **AP-NBRC-350**	9/24/2025	Denali Commission	CATEX	B3. Construction or lease of new infrastructure including, but not limited to, healthcare facilities, community buildings, housing, and bulk fuel storage and power generation plants, where such lease or construction:a. Is at the site of existing infrastructure and capacity is not substantially increased; orb. Is for infrastructure of less than 12,000 square feet of useable space when less than two acres of surface land area are involved at a new site.Application of the CE will be limited to the following NBRC activities, which would occur on previously disturbed land: • Grants for new infrastructure for healthcare facilities; • Grants for new infrastructure for childcare facilities; • Grants for new infrastructure for community buildings and housing; • Grants for projects that upgrade or replace outdated power generation technology; • Grants for water and wastewater infrastructure;

John Hay Estate at the Fells **AP-NBRC-298**	10/1/2025	Denali Commission	CATEX	B1. Upgrade, repair, maintenance, replacement, or minor renovations and additions to buildings, roads, harbors and other maritime facilities, grounds, equipment, and other facilities, including but not limited to, roof replacement, foundation repair, ADA access ramp and door improvements, weatherization and energy efficiency related improvements, HVAC renovations, painting, floor system replacement, repaving parking lots and ground maintenance, that do not result in a change in the functional use of the real property. Application of the CE will be limited to the following NBRC activities, all of which would occur within the existing footprint of a building or on adjacent disturbed land: ■ Grants to support renovation of health facilities to bring them up to modern use standards; ■ Grants to support upgrades, maintenance, and repair of existing transportation infrastructure (e.g., covered bridges) including for the purpose of resiliency to changing local climate; ■ Grants to support connections to existing trails, for example, from a city street to a bike path, and renovating tourist destination hubs to ensure continued access to tourist centers in the region where potential impacts of connections are documented and do not substantially alter existing facilities, traffic patterns or other existing infrastructure; ■ Grants to support upgrades, repair, maintenance, replacement, minor renovations, or additions to existing buildings, roads, harbors, and/or other maritime facilities to ensure continued access for purposes of economic development and/or community access, where the addition will not result in changes to the existing functional use, and where any additions occur on adjacent previously disturbed land.

Rangeley Lakes Region Chamber of Commerce **AP-NBRC-335**	10/2/2025	Denali Commission	CATEX	B1. Upgrade, repair, maintenance, replacement, or minor renovations and additions to buildings, roads, harbors and other maritime facilities, grounds, equipment, and other facilities, including but not limited to, roof replacement, foundation repair, ADA access ramp and door improvements, weatherization and energy efficiency related improvements, HVAC renovations, painting, floor system replacement, repaving parking lots and ground maintenance, that do not result in a change in the functional use of the real property. Application of the CE will be limited to the following NBRC activities, all of which would occur within the existing footprint of a building or on adjacent disturbed land: ■ Grants to support renovation of health facilities to bring them up to modern use standards; ■ Grants to support upgrades, maintenance, and repair of existing transportation infrastructure (e.g., covered bridges) including for the purpose of resiliency to changing local climate; ■ Grants to support connections to existing trails, for example, from a city street to a bike path, and renovating tourist destination hubs to ensure continued access to tourist centers in the region where potential impacts of connections are documented and do not substantially alter existing facilities, traffic patterns or other existing infrastructure; ■ Grants to support upgrades, repair, maintenance, replacement, minor renovations, or additions to existing buildings, roads, harbors, and/or other maritime facilities to ensure continued access for purposes of economic development and/or community access, where the addition will not result in changes to the existing functional use, and where any additions occur on adjacent previously disturbed land.
Boscawen **AP-NBRC-333** **GT-25SPC-00044**	10/9/2025	National Park Service	CATEX	•NPS NEPA Handbook (2015), §3.3(F)(5): Grants for the construction of new facilities within an existing park or recreation area.
Town of Groton **AP-NBRC-00336**	10/14/2025	Denali Commission	CATEX	B3. Construction or lease of new infrastructure including, but not limited to, healthcare facilities, community buildings, housing, and bulk fuel storage and power generation plants, where such lease or construction:a. Is at the site of existing infrastructure and capacity is not substantially increased; orb. Is for infrastructure of less than 12,000 square feet of useable space when less than two acres of surface land area are involved at a new site.Application of the CE will be limited to the following NBRC activities, which would occur on previously disturbed land: • Grants for new infrastructure for healthcare facilities; • Grants for new infrastructure for childcare facilities; • Grants for new infrastructure for community buildings and housing; • Grants for projects that upgrade or replace outdated power generation technology; • Grants for water and wastewater infrastructure;

Partnership for Public Health, Inc. **AP-NBRC-283**	10/14/2025	HUD	CATEX Determination Adoption	§58.35(a)(3)(iii): Rehabilitation of non-residential structures where the use and size of the facility would not substantially change
