

**Awards Approved by Northern Border Regional Commission
July 25, 2018**

Maine:

NBRC18GME01

- Presque Isle Utilities District
- Amount of Award: \$500,000 Total Project: \$774,600
- Contact: Frank Kearney 207-762-5061 frank@piutilities.com

- Project Description: The Tater Meal Pump Station currently supports approximately 3,600 LF of sewer main which services the Skyway Industrial Park. The pump station runs at full capacity through much of the year due to excessive I/I. The project will consist of sewer system upgrades at the pump station including replacement of deteriorating sewer main, installation of new pre-cast manholes, installation of a larger pump house structure and upgrades to the pump. These improvements will increase capacity of the collection system to allow future commercial users to be added to the system which will create jobs in the industrial park.

NBRC18GME05

- Town of Rockport, Maine
- Amount of Award: \$250,000 (Requested amount \$500,000), Total Project: \$4,000,000

- Contact: Richard Bates, 207-236-0806, townmanager@town.rockport.me.us
- Project Description: The project is to expand public sewer along a 1.8 mile portion of Route One which is a prime commercial development area. The sewer will serve 26 existing businesses, who employ 184 people, and allow expansions of existing commercial uses. It will also enable two existing businesses, with failing subsurface waste disposal systems, to remain in business retaining 15 jobs. A new hotel is planned for this corridor which requires public sewer, anticipated to create 22 jobs. Anticipated growth in this area over the next 2 years is between 45-55 jobs. Matching funds for this project will come from the Town, CDBG, and EDA. The project has an anticipated start date of November 2018 with an end date of August 2020.
