Significant Rebudgeting: A threshold that is reached when expenditures in a single direct cost budget category deviate (increase or decrease) from the approved budget amount for that budget category for that budget period by a specified amount. Significant rebudgeting is one indicator of change in scope.

Subaward: Financial assistance in the form of money or property in lieu of money provided under an award by a recipient to an eligible subrecipient (or by an eligible subrecipient to a lower tier subrecipient). The term includes financial assistance when provided by any legal agreement, even if the agreement is called a contract, but does not include either procurement of goods or services or, for purposes of this policy statement, any form of assistance other than grants and cooperative agreements. The term includes consortium agreements.

Subrecipient: An entity that receives a subaward from a recipient or another subrecipient under an award of financial assistance and is accountable to the recipient or other subrecipient for the use of the Federal funds provided by the subaward.

Supplies: Personal property other than equipment, intangible property, and debt instruments. The category of “supplies” includes items that could be considered equipment, but do not meet the threshold definition.

Sustainable Tourism: The aim of sustainable tourism is to increase the benefits while also minimizing negative impacts on the environmental and local communities caused by tourism for destinations. This can be achieved by: Protecting natural environments, wildlife and natural resources when developing and managing tourism activities.

Terms and Conditions: All legal requirements imposed on a grant by the NBRC, whether based on statute, regulation, policy, or other document referenced. In addition to general terms and conditions, the grant agreement may include other conditions that are considered necessary to attain the award’s objectives, facilitate post-award administration, conserve grant funds, or otherwise protect the Federal government’s interests.

Unallowable Cost: A cost specified by law or regulation, Federal cost principles, or term and condition of award that may not be reimbursed under a grant and may not be counted as cost share.
